A Topic Words and Highly-Weighted Sample Posts

[See main text for further information.]

A.1 Topic 2 (NRx)

Top words:

argument point wrong said logic saying say evidence trying arguments fact argue debate
logical anything opinion arguing nothing post discussion statement points agree facts
someone making claim prove comment made based something actually without talking true
reason disagree right believe instead simply stupid using understand bullshit try
completely proof use claims response valid explain clearly reasoning person rational
correct anyone mean makes rather attack statements false topic position fallacy case
actual conclusion opinions conversation science either see idea support never calling
personal theory theres example matter irrelevant ideas hominem sound scientific criticism
exactly internet seem read issue entire assumptions could thought original attempt
back thinking whether convince yet obvious come otherwise cannot obviously also lack
stated counter defend yes truth call idiot nonsense subject thread words emotional clear
ignorant assumption provide ridiculous really says win intelligent proven therefore view
done logically stating attacks debating please assume insults pointing enough waste
need shaming sense intellectual pointless premise discuss literally address seriously
absolutely insult engage look conclusions examples strawman context ignore justify
respond attacking anecdotal comments sure reply ops question reasonable incorrect
discussing real whole troll dumb dismiss claiming simple retarded show seems information
ignorance lets take must fine things basis straw
